📍 Bengaluru, Karnataka — 🌐 LinkedIn

FullStack Developer with 3+ years of experience in Spring Boot, Microservices, Hibernate, and AWS, Skilled in REST APIs, JWT, Kafka and CI/CD With Jenkins, Experienced in Agile(Scrum) using JIRA. Delivered scalable, secure, cloud-native systems with integrations like Stripe, SendGrid, and Twilio

## 🔧 TECHNICAL SKILLS

**Programming Languages:** JavaScript, TypeScript, Java 8-17, Spring Boot, Spring MVC, Spring Security, Spring Cloud, Hibernate(JPA), Feign Client, RESTful APIs, Microservices Architecture

**Front-end:** Angular, Tailwind, Bootstrap Material UI, ShadCN UI, Google Search Console.

**Database & Cache:** MySQL, ER Diagrams, Redis Cache

**Cloud & DevOps:** AWS (EC2, S3, IAM), Docker, Kubernetes (EKS), Terraform, Jenkins CI/CD, GitHub Actions, Git etc.

**Messaging & Communication:** Apache Kafka, REST API, Feign Client for communication in microservices, Eureka Server, API Gateway etc.

**Tools & Libraries:** Jira, Postman, Swagger, IntelliJ IDEA, STS, Maven, Git, GitHub, Stripe

**Monitoring & Logging:** SLF4J, Logback, Zipkin, Spring Boot Admin, ELK

**Development Process:** Agile Methodology(Scrum)-Spring Planning Daily Stand-ups, Retrospectives

## 📁 EXPERIENCE

### RBM SOFT

Software Developer

Jul 2024 – Present

Pune, India

- Built a scalable e-commerce platform for **E-Commerce Platform**, Collaborated with 10+ engineers to Developed and consumed RESTful APIs using Spring Boot and Angular.....
- Collaborate with 10+ engineers to develop **Employee Management System**, a cloud RDBMS that digitizes the full employee lifecycle from recruitment to performance appraisals, improving HR workflows by 40%.
- Develop RESTful APIs with java and Spring Boot that process 100,000+ daily requests with sub-200 ms response times.

### Advika Herbals Pvt. Ltd.

Jr. Software Engineer

may 2023 – jun 2024

Gwalior, India

- Built a scalable Agriculture platform for **prithu**, Collaborated with 8+ engineers to Developed and consumed RESTful APIs using Spring Boot and Angular.....
- Delivered 8+ production releases in 5 months using Angular and Spring Boot while lowering bug rates by 25%.
- Secured application data with Spring validation and protection against Spring Security and SQL injection.

### PNINFOSYS

Intern

nov 2022 – Apr 2023

Gwalior, India

- Fixed over 50 major bugs and accelerated development cycles by 20%.
- Reviewed 80+ pull requests to uphold high code quality and design standards.

## 🔗 PROJECTS

### Dr. Morepen Pharmacy | Java, TypeScript, Angular, Spring Boot, Mysql, Tailwind, Razorpay

🔗 Live

- Enable doctor and dietitian consultations to support patient communication throughout the healthcare journey.
- Build dashboards for providers to monitor patient progress and trigger personalized interventions.
- Improve treatment adherence through medication reminders, refill alerts, and reward-based learning.

### Prithu.earth – Digital Agriculture Platform | React, Java, Spring Boot, Hibernate, Microservices, Apache Kafka

🔗 Live

- Developed scalable microservices and REST APIs for an agriculture platform connecting farmers, buyers, and agri-businesses across India.
- Integrated real-time communication using Apache Kafka, WebSockets, and Server-Sent Events (SSE) to provide live order updates, inventory synchronization, and instant notifications.

### Multi-LLM Ai Chat Platform | Angular, TypeScript, OpenAI, Claude, Gemini, Ollama

Jul 2024

- Designed a modular frontend architecture integrating multiple AI models through a unified interface.
- Implemented intelligent API routing and fallback mechanisms to ensure high availability.

## 🎓 EDUCATION

### Govt Vrinda Sahay College )

Bachelor of Commerce in Informatics Practices (Minor in It and software)

2019 – 2022

GPA: 6.4/10
